TRUE NORTH

Hi %FIRSTNAME%,

Congratulations!

I'm so honored and thrilled that you're joining me for the **Clarify Your Vision One-Day Jumpstart Workshop**. Take a moment and really acknowledge yourself for listening to your heart and investing in YOU!

Mark your calendar now for **<insert date, time, and location>.** I'll also send you a reminder as it gets closer to the date. This workshop will show you, step-by-step, how to clarify your vision in a way that's unmistakably "you" and completely in alignment with your core values and purpose.

You'll uncover your personal patterns and their impact, and you'll learn how to distill the non-negotiables for your life and business.

The powerful, custom-designed exercises in this program will help you crystallize your own definition of success!

As you prepare for the workshop, let's go over how everything works.

1. Your Coaching Intake Form

<insert link to intake form>
This intake form will allow me to learn about you and your goals, and will help me provide more coaching value during the workshop and weekly live Q&A sessions. Please complete and submit the intake form at least 48 hours prior to the workshop.

2. Visionaries Private Facebook Group

If you haven't already done so, click here to join our private community of Visionaries on Facebook. This is where I will host live weekly Q&A sessions for personalized guidance to address your most pressing challenges and obstacles. Don't miss out!

3. Weekly Accountability Check-Ins

Accountability is such an important part of being proactive and intentional about creating your future, instead of allowing your future to happen to you. Our weekly check-ins will provide an opportunity for you to connect with me and other amazing Visionaries across the globe. You'll learn tips, tools, and strategies to help keep you on track with your Vision.

4. <if there's anything extra you want them to "bring" or have with them for the workshop, this is where I would list it.>

THANK YOU again for believing in yourself. I look forward to working with you and supporting your growth to become a more effective leader and accelerate your results in your life and business!
